Railway Supply Institute

We believe that

The railway supply industry can prosper only as the American railroads prosper;

The railroads can prosper only if they are permitted to manage their own affairs in accord with the American tradition and to compete on an equal footing with other forms of transportation;

Our nation can prosper only if it continues to have strong, adequate rail transportation geared to the growing needs of commerce and the national defense; and,

The Railway Supply Institute, organized as the voice and the promotional arm of the railway supply industry and set up to aid the railroads in every way possible, is the means by which we can contribute to the welfare and security of our nation, to the progress and prosperity of the railroads; and to the growth and success of our own industry.
