

## MPRCseals.com "SR- (Service and Repair) Kit"

When you're in the service and repair industry, unexpected problems occur. You need the right gasket material for the job, and you need it quickly. There's no time to wait. Waiting days - even weeks, for a small replacement gasket while equipment is down, is simply not an option.

MPRCseals.com has developed a creative solution to help you be prepared for these situations: **Introducing the "SR- ("Service and Repair") Kit."** The "SR" Kit includes all the essentials you need to make a gasket quickly and efficiently in the field. The kit contains such materials as Premium PTFE Flange Sealant, high-temp Synthetic Fiber sheet, cork, foam material with a stick-on adhesive, Vegetable Fiber, Nitrile Rubber, and Premium Thread Seal Tape. Best of all, it all comes in one convenient and mobile box, traveling perfectly in a tool chest or truck cab, taking very little space.

Plan ahead. Call us today at **800-397-3429** to ask about our "SR Kit," and how you can be better prepared for the unexpected.
